## ALARMING SEISMIC DISTURBANCE IN THE EAST.

Philadelphia Has the Most Severe Shock—Brooklyn Citizens Frightened—No Loss of Life But Much Damage to Property Reported—Record of the Shock.

Philadelphia, Pa., Sept. 2.—An earthquake lasting several seconds was felt in this city shortly after 6 o'clock yesterday morning. The disturbance of the quiet of the Sabbath morning was violent enough while it lasted to create a good deal of consternation and not a little damage. Buildings perceptibly swayed, windows clattered and banged and clocks and pictures toppled from their places. The shock was most severely felt in the suburban districts. The western part of the state reports no shock. In one part of George's Hill, in Fairmount Park, a fissure was opened permitting the entrance of a plummet, which extended over 100 feet without touching bottom. A large plate-glass window in the shade store of Michael Letts, No. 1914 Germantown avenue, was split from top to bottom. Similar cases are reported from other sections of the city.

At the Zoological Gardens the vibration was clearly perceptible, but the excitement which followed among the animals continued for a good while after the seismic disturbance. Head Keeper Manley asserts that the trumpeting of the elephants, the roar of the lions and the screeching of the birds were simply terrific. At Mr. Manley's residence, besides the breaking of several windows, a clock was thrown from a shelf. No loss of life has been reported.

## THREE SHOCKS IN BROOKLYN.

No Loss of Life or Damage to Property Reported.

Brooklyn, N. Y., Sept. 2.—Three distinct earthquake shocks were felt by the residents of Brooklyn about 6 o'clock yesterday morning. No damage to life or property is reported from any section of the city. The districts of East New York and South Brooklyn received the greatest shock, but the rumblings were distinctly felt in other sections of the city. Contradictory reports are given as to the severity of the shocks. The first one was followed by a rumbling noise like distant thunder. This was followed by two slighter shocks, which, according to most of the reports, died away in a low grating noise.

Superintendent of Police William J. McKelvey telephoned to police headquarters from his Greene avenue residence to the effect that he had been awakened from a sound sleep by the earthquake. He said that the house oscillated, and that the bed on which he was sleeping moved perceptibly.

Deputy Commissioner of Police Crosby, who was stopping at Coney Island, also telephoned to headquarters that the shock had been pretty severe in that section of Brooklyn. He described it as a low rumbling noise, and added that many houses had been shaken, all of the inhabitants being aroused from their sleep.

James Jackson, a colored watchman at the Munroe building, said that the residents of the Twenty-fifth ward were startled by three shocks in rapid succession, followed by a rumbling noise. The houses trembled, and many pictures and other ornaments hanging on the walls were thrown to the floor.

Two conductors of the Atlantic Avenue railroad, who were dining in a restaurant on Washington street, reported that they felt the earthquake shocks. The building trembled perceptibly, while the plates and other dishes on the tables were moved. They said the shocks were like the effects of a distant explosion.

At many hotels the guests were so frightened by the vibrations that they hurried into the hallways to find out the cause of the trouble. The guests at the Pierpont house were much alarmed, and many of them went down stairs and asked the night clerk what had happened. They thought an explosion must have occurred in the hotel.

## FELT IN NEW JERSEY.

Houses Shaken and Dishes Broken, but Nothing Worse.

Jersey City, N. J., Sept. 2.—New Jersey felt the force of the earthquake, the tremor extending throughout the northern part, while the southern section appears to have escaped the experience entirely. From all of the cities and villages in the northern section the story received is the same. The shock was preceded and accompanied by the low rumbling sound that marks the true earthquake. This trembling motion lasted several seconds. In some places the estimate of time is as low as three seconds, while others place the duration of the disturbance at from fifteen to twenty seconds. The general course of the shock was from the east to west. There is much difference in the reports as to the true direction from which the shock came. The early hour is perhaps responsible for this difference of opinion, as the majority of those who felt the shock were awakened from their sleep by the sound, and vibrations and the quake ceased before they had recovered consciousness and were sufficiently awake to realize the cause of the trouble.

The shock does not appear to have been sufficient to cause much damage. In all places the effects appear to have been about the same. Houses were shaken and dishes were broken, but nothing worse than this has been reported. The mountain districts appear to have felt the vibration most keenly. That section of Paterson which is situated on higher ground was generally shaken, while the people living in the lower sections of the town report having felt nothing of the effects of the quake. The towns along the ocean shore report little disturbance.

## Shock at Wilmington, Del.

Wilmington, Del., Sept. 2.—Quite a perceptible shock of earthquake was felt in this city about 6:30 yesterday morning. The vibration lasted for several seconds, and was felt in all portions of the town.

## SERVICES AT HINCKLEY.

Anniversary of the Forest Fires Appropriately Observed.

Hinckley, Minn., Sept. 2.—Memorial exercises of an extensive and elaborate character were held here yesterday in commemoration of those who met their death in the terrible forest fires of one year ago, in which over 500 people lost their lives. The ceremonies took place in the magnificent new city hall and were solemn and touching in the extreme. Chairman Collins presided. The attendance was large. Rev. Messrs. Knudson and Peterson delivered appropriate addresses touching on the events of the fire. Music was furnished by the town and village quartet. The address of the day was delivered by Robert C. Saunders. Other addresses were delivered by Rev. Messrs. F. Peterson, F. Jamieson and Father Carey.

## TO WRECK A TRAIN.

Many Persons Saved from Death by a Narrow Margin.

Pittston, Pa., Sept. 2.—An attempt was made to wreck the Lehigh Valley passenger train, No. 2, bound west, early yesterday morning. The attempt was made at Tompkins' switch, where the line skirts the banks of the Susquehanna river, and had it succeeded the train, consisting of five well filled sleepers, three day coaches and two baggage cars, would have plunged down a twenty-foot embankment into the river. Fortunately the train was a half hour behind time, when a track-walker discovered a heap of timbers, ties and bowlders on the track and flagged the train, which was approaching at high speed.

IN WILHELM'S HONOR  
THE BELLS PEALGERMANS DEDICATE THEIR  
MEMORIAL CHURCH.

Monument To The Old Kaiser—Impressive Ceremonies In Berlin Yesterday—The City Handsomely Decorated—London Times Talks of Bimetallism—Foreign News Notes.

Berlin, Sept. 2.—Emperor William and the Empress Augusta and other members of the imperial family, the grand duchess of Baden and numerous representatives of German princely houses, ministers of state, officers, veterans and deputations were present yesterday at the consecration of the Emperor William Memorial church. The emperor and empress arrived with a military escort at about 10 o'clock. The doors of the church were opened to the accompaniment of pealing bells, and their majesties were handed the golden key of the building by a deputation. At the conclusion of this service the troops and veterans, including the German-American veterans now visiting the city, marched past their majesties in review. The veterans sang patriotic airs as they marched, in which the spectators joined.

It is evident that the German nation, especially the Berliners, intend to celebrate the anniversary of the battle of Sedan in a peaceful but determined manner. The task of decorating the city for the fetes is not yet finished, but enough has been done to justify the prophecy that the capital will present such a spectacle as has seldom been seen.

The newspapers all contain reflections upon the occasion, and agree that it is a demonstration to the honor of united Germany and not of satisfaction at the defeat of the French. "All party squabbles are laid aside for the time being. Even the ultramontanes, the Guelphs and the Poles avoid unpleasant remarks. The Catholic ecclesiastical authorities of Prussia have actually ordered that a solemn Te Deum be sung in the churches in honor of the day. This has never been done before.

The jarring tones of the socialists, who were attempting a demonstration of disapproval of the celebration, find little echo among the people. It seems that the projected socialist anti-demonstrations have been abandoned.

Yesterday's ceremony combined the characteristics of a national military and religious festival. The golden key of the new church was presented to the empress, who was the patron of the undertaking. It is the tenth church opened in the capital under the present reign. Most of them owe their existence to the kindly initiative and untiring zeal of the empress. The new church may fairly be ranked among the finest architectural features of Berlin.

## HARD ON BIMETALLISTS.

London Times Thinks the Movement Is Nearly at an End.

London, Sept. 2.—An editorial in the Times comments upon the grave blow which A. J. Balfour's statement is to the hopes of German and American bimetallists. Mr. Balfour, it will be remembered, stated in the house of commons that he did not believe an international bimetallic conference would result in an agreement on a ratio. The Times says:

"The American bimetallists are made of sterner stuff than the Germans, and will therefore continue to agitate; but it is less likely than ever that they will carry the country with them. There seems no chance that either party will allow itself to fall under the sway of the silver men. The recent publicity of the aims of the bimetallic party here has been a revelation and warning. We trust that the trade revival now in progress will complete the cure and that we shall hear less and less about bimetallism from any quarter."

## Alliance Incident Is Closed.

Madrid, Sept. 2.—A Polish count, Hobkirk, who was a passenger on the American steamer Alliance, when she was fired upon by a Spanish gunboat off Cape May, Cuba, and who accuses the captain of the Alliance of suppressing his evidence that the Alliance carried contraband of war and was within Cuban waters, has arrived here and has seen the ministers of war and marine regarding the matter. The government, however, declines to reopen the question. Count Hobkirk has published his story in the Spanish newspapers, and it has caused a sensation here.

## Will Not Help Turkey.

London, Sept. 2.—A dispatch from Constantinople to the Daily News reports that meetings of ministers have taken place at the palace on three successive evenings, lasting until midnight, to discuss Armenia. It is reported also that Emperor William has been asked to intervene, but declined, on the grounds that the porte had already disregarded his advice to introduce reforms. Then President Faure was approached, but declined to accept in concert with the powers.

## Princess Colonna Gets Her Children.

Naples, Sept. 2.—The court which has been hearing the controversy between Prince Colonna and his wife, who is the daughter of Mrs. John W. Mackey, has ordered that the sons be given to the princess and that if necessary force is to be used.

CLOSE WATCH KEPT  
ON CUBAN REBELS

## LITTLE ISLAND IS POLITICALLY ISOLATED.

Vessels May Not Land Passengers To Any Port But That of Destination—Business Seriously Interfered With—Sugar Shipments Have Ceased Because of Espionage.

Washington, Sept. 2.—An interesting report from Cuba has been made to Surgeon-General Wyman of the United States Marine Hospital Service by Sanitary Inspector Henry S. Caminero. In obedience to orders from Washington the inspector has gone to Santiago, whence he writes as follows:

"It seems impracticable, if not impossible, to carry out your instructions to visit Nuevitas, Gibara, Baracoa, Guantamo, Manzanilla, and Santa Cruz monthly, for the following reasons: First, a general order has been issued forbidding passengers to land at any point excepting the port of destination. This order implies stopping at each port three to five days until the next boat comes along, if not ordered back for troops or to some other point far away for reinforcements. But fortunately with the inability to comply, the necessity has very largely disappeared.

"Outgoing vessels to the United States from all points except Santiago and Baracoa have practically ceased, and what little shipments these ports have to make to the United States will now be sent by coastwise boats to Santiago, Cienfuegos, and Havana. Sugar shipments, which are the principal cargoes from these places, are over until January.

"The insurgents have stopped the cutting and hauling of timber to the seaports, which is practically all they ship at this season of the year; so, with perhaps one or two exceptions, I do not think there will be a vessel leave any of the ports under my care except from the ports of Santiago and Baracoa between now and January next, and none, except from Santiago, will carry passengers."

## May Ask for Damages.

Denver, Colo., Sept. 2.—Vice-Consul Cuneo, representing the Italian Government, has forwarded to his government his report on the death of the miners at Central City. Word has been sent to the Austrian Consul at St. Louis to investigate the cause of death, and if the fact of carelessness is established the foreign government will request the state department to collect damages from Colorado. This action has been induced by the delay and lack of interest shown by the mine owners in getting the water out of the workings, as they have not done anything since the accident to recover the bodies.

## To Close Saloons.

Council Bluffs, Ia., Sept. 2.—J. J. Shea, Chairman of the Iowa Free Silver committee, yesterday filed twenty-nine petitions for temporary injunctions against saloons of Council Bluffs. Notice that these petitions would be filed were served to-day. There are forty-seven saloons in Council Bluffs and every one has been served with notice of suit. The hearings have been postponed to Tuesday. If the suits are pressed there is little doubt that Shea can close every saloon in the city, by-mule law closely.

## Talk of a Combination.

Indianapolis, Ind., Sept. 2.—The Populist state committee has issued a call for a meeting here today. In addition to the members of the committee there will be delegates from every county in the state, and the session is to be held for the purpose of reorganizing the party in Indiana. It is expected a committee will be appointed at the meeting to lay the question of combining before the Prohibitionists.

## Baseball Player Dying.

Philadelphia, Pa., Sept. 2.—Joseph Sugden, one of the catchers of the Pittsburgh Baseball club, is dying of typhoid fever at his home in Frankford, a suburb of this city. Sugden came to his home two weeks ago complaining of not feeling well, but no serious consequences were then feared. The Pittsburgh club is now in this city playing off a series of games.

## Will Meet in the South.

Cincinnati, O., Sept. 2.—The Sons of Veterans hold their annual encampment at Knoxville, Tenn., Sept. 16 to 19. This is the first meeting by the national organization south of the Ohio river and Potomac, and, like the Grand Army of the Republic encampment at Louisville, marks a new era in national history.

## Arrested on a Serious Charge.

Beatrice, Neb., Sept. 2.—Ald. I. N. Casper has been arrested on a warrant charging him with manipulating the ballot at the late county convention. There is said to be abundant proof in support of the charge. If convicted Casper will be subject to a fine of \$500 or imprisonment for a year.

## "The Ripper" in an Asylum.

New York, Sept. 2.—Dr. Winslow, a London alienist now in this city to attend the Medico-Legal congress, says that "Jack the Ripper" is confined in an insane asylum near London, a raving maniac.

STORM IN MEXICO.  
Definite Information Hard to Obtain—  
Railroad Traffic Blocked.

Laredo, Tex., Sept. 2.—Information regarding the fearful storm of Friday, raging from Corpus Christi, Tex., and across the border several hundred miles into Mexico, is very meager. Late last night scarcely anything definite had been learned, as the railroad officials are very reticent. Enough is known, however, to state that the storm is the worst in the history of northern Mexico. Advances indicate that wires to the City of Mexico over the Mexican National railway will not be serviceable until to-night, and unofficial reports would indicate the abandonment of through trains until the latter part of the week. Five miles of Mexican National telegraph wires are down, with numerous bridges washed away. In many places the Mexican National roadbed is washed out for several hundred yards. At one point 300 yards of the track was washed into a small river and twisted into all sorts of shapes.

## SUNK A RIVAL TUG.

Fireman of the Lost Boat Drowned in Duluth Harbor.

Duluth, Minn., Sept. 2.—The Singer and Inman tugs, which are bitter rivals at this port, will do no more racing inside the harbor, as has been their habit. At noon yesterday two tugs were racing for a tow, and because the Inman tug Pathfinder was in the lead, it is charged the Singer tug Medina struck and sunk her. J. Culy, the Pathfinder's fireman, was drowned, but the others of the crew were picked up by a passing boat. No arrests have been made as yet. There is great indignation over the affair, especially as private boats in the harbor have had many narrow escapes from being cut down by the racing tugs.

## Shot His Wife and Daughter.

Decatur, Ill., Sept. 2.—George P. Allen yesterday shot his wife and his stepdaughter, Minnie Deffenbaugh. The daughter's wound is fatal. The wife will recover. Allen sat on the porch after the shooting and kept his neighbors off with a revolver for an hour. Finally he called for tobacco and a match. They were taken to him and as he lighted his pipe he was overcome with emotion. He is now in jail. He refuses to say why he tried to kill the women. Friends who know him and who say he is industrious and peaceable declare that he was overheated while working last week. They think he is now insane. He moved here from East St. Louis six months ago. He was a deputy sheriff there.

## Excitement in the Oil Region.

Elyria, O., Sept. 2.—There is considerable oil excitement at Grafton, this county, seven miles south of this city. Parties from Kipton, supposed to be representatives of the Standard Oil company, have been in that section this week leasing oil lands. Their object is to secure 2,000 acres. Several valuable farms have been leased. Their owners receive one-eighth of the product if oil is secured. The wells are to be 1,500 feet deep and drilled within twenty-four months. The indications are favorable.

## Postoffice Robbers Captured.

Springfield, Ill., Sept. 2.—It is reported here that Killoran, Russell and Allen, the Springfield postoffice robbers who broke jail in New York July 4, are under arrest in East St. Louis. Officers here practically admit that the men have been captured, but will give out no particulars. The sheriff here, it is claimed, sent for William Schavers, who went to New York to identify the robbers, and notified him to make preparations to go to East St. Louis in the morning.

## Drowned with His Little Son.

Stamford, Conn., Sept. 2.—The news that Samuel A. Searle, assistant foreman at the Blickensderfer typewriter factory here, was killed by lightning and his 5-year-old son drowned near Greenwich Point beach Saturday was received here yesterday. Both lost their lives while Searle was swimming to shore from a capsized boat with the little boy on his back. The bodies floated ashore. Another son of Searle and two companions, who were in the boat, escaped.

## Killed in a Railroad Wreck.

Huntington, Pa., Sept. 2.—An east-bound freight on the Pennsylvania railroad was wrecked by a broken axle six miles west of this city Saturday night. Twenty cars loaded with coal and bridge iron, were entirely demolished and the debris piled up on both the tracks for over a hundred yards. E. W. Franks, a brakeman, whose family lived in Harrisburg, was caught under the wreck and instantly killed.

## Purse After a Murderer.

St. Louis, Mo., Sept. 2.—The report from Gumbo that John Wesley, the negro who assaulted Mrs. Marmion Friday night at Manchester, Mo., had been captured is untrue. A large number of mounted men are searching the country for him. It is believed by many that his hiding place is known by some of the colored people and that they are aiding him to escape.

## May Lynch a Colored Boy.

Marlboro, Md., Sept. 2.—The sheriff and deputies are guarding the county jail to prevent any attempt to lynch John Davidge, a 19-year-old colored

ENDED HIS TROUBLE  
WITH A REVOLVERPROMINENT MANITOWOC MAN  
COMMITTED SUICIDE.

Henry Fulton, White Despondent Sends a Bullet Through His Brain and Dies Without a Struggle—Ronald McDonald of Portage, Killed Instantly in a Runaway Accident.

Manitowoc, Sept. 2.—Henry Fulton, a prominent resident of this place committed suicide this morning by shooting himself through the head. He was forty years old and leaves a family.

Portage, Sept. 2.—Ronald McDonald was thrown from a horse in a runaway here today and killed instantly.

## Militia at Ishpeming, Mich.

Ishpeming, Mich., Sept. 2.—A battalion of the Fifth regiment and one company from the Third reached Houghton at 3 o'clock this morning. It is not probable that the militia will be attacked, although some of the miners are rash enough not to be held in check by the cooler heads to attempt anything.

Detroit, Mich., Sept. 2.—The first and third divisions of the Michigan Naval reserves, located in this city and including in their membership some of the wealthiest and most aristocratic families in town, received orders yesterday to prepare to go to Ishpeming. They mustered 110 strong at their armory and were then placed on waiting orders to report at 7 o'clock this morning with side arms and ammunition.

## Religious Fight Begun.

Lincoln, Neb., Sept. 2.—The fight between Bishop Bonacum and his priests has broken out again. Some months ago the bishop deposed Father Fitzgerald of South Auburn and Father Murphy of Tecumseh for insubordination. The priests took the case to Monsignore Sattoli and the order of the bishop was not enforced. Last week the bishop ordered them before him for trial. They evaded his citation and will refuse to be tried. The action of the bishop is looked for with great interest.

## Still Worrying Christians.

Shanghai, Sept. 2.—Chinese Christians are being brutally harried near Hing Hwa, province of Fo Kien. Houses have been burned and property and cattle lifted. One person was fatally wounded. The magistrate refused to interfere, although he was five times requested to do so. He had published an ambiguous proclamation referring to the Ku Cheng massacre and inciting a rising against the Christians. Worse troubles are expected.

## Old Landmark Burned.

Buffalo, N. Y., Sept. 2.—The Academy of Music, burned Saturday night, was erected in 1852 by Henry T. Meech, who died in 1870, since which time it has been managed by his sons, John H. and Henry L. Meech. It was originally known as the Metropolitan. It was remodeled in 1882. The sons owned the property until a year ago, when it was sold under foreclosure proceedings to a syndicate of creditors. The season had just opened. The property is worth about \$250,000 and was heavily mortgaged and but half insured. It is unlikely the building will be rebuilt as a theater.

## To Be Opened to Settlers.

Santa Fe, N. M., Sept. 2.—News has been received here that the general land office at Washington has concluded to throw open to settlement the alleged Una de Gato land grant in Colfax county. This is a tract of 300,000 acres. The tract is of value for agricultural and grazing purposes. Entry has been prevented by the contention of S. W. Morse and others that it was a Mexican grant and they the owners. The claimants failed to file their claims in the court of private land claims before March 1, 1893, according to the law establishing that court, and are barred.

## Illinois Coal Mine on Fire.

Pana, Ill., Sept. 2.—At 8:30 last night fire was discovered in Pana Coal company's old shaft. At the time the fire was discovered only three men were in the mine, and they have not yet been reached. It is thought, however, they can be reached from No. 2. The shaft is 700 feet deep, and this, together with the intensity of the smoke and gas, makes it impossible for workmen to get at the fire. It is thought the fire started from a gas explosion in the abandoned stables of the mine.

## Against Secret Societies.

St. Paul, Minn., Sept. 2.—Bishop Marty yesterday promulgated a decree against the Knights of Pythias, Odd Fellows, and Knights Templar. The announcement was made at early mass. Catholics are forbidden to hereafter join these secret societies, on pain of excommunication. Those who are already members were requested to tonsure the bishop or their pastor.

## Big Contract for an American.

Tegucigalpa, Honduras, Sept. 2.—W. N. Valentine, an American, has signed a contract with the government for the completion of the port of Puerto Cortes. The cost of this work will be covered by an import tax.

## E. M. HYZER REVIEWS WATER WORKS SUIT

### ORIGINAL COST OF THE JANESVILLE PLANT.

Expensive Litigation Between the City and the Company Deemed Unnecessary—History of The Changes in Business That Made Figures Difficult To Obtain.

In view of the recent report of the common council committee with reference to the Janesville Water company, and the attitude which the attorneys for the city assume toward the Water company, I desire to have published the statement, which I made last April to the council, when the statement of cost was filed.

It is not my purpose or desire to enter into a newspaper controversy with reference to pending, or future litigation, but whatever the result of such litigation may be, it is my desire that the present owners of this plant be not unjustly accused of offense.

After the organization of the Janesville Water company in 1887, that company entered into a contract with the Wisconsin construction company to construct this plant, according to the ordinance, and agreed to pay the Wisconsin Construction company therefor three hundred and ten thousand dollars, in cash, stock of the Janesville Water company, or bonds. That amount was paid as follows: \$140,000 in bonds, and 170,000 in stock, of the Janesville Water company. This three hundred and ten thousand dollars went upon the books of the Janesville Water company as the cost of the plant to the Janesville Water company. There was no attempted concealment of this transaction. It stands plainly upon the books. This statement from the books of the Janesville Water company was the basis of the affidavit made by B. R. Clark in December, 1891, which has been so frequently referred to in this controversy, and a copy of which was filed by W. G. Maxcy with the city last August, together with the statement made by Mr. Maxcy of the cost of the works according to the books of the Janesville Water company. And I desire here to call attention to the fact that the Janesville Water company through Mr. Maxcy or any of its officers has never at any time sought to obtain from the city, or ask from the city, any price for this plant based on an original cost of three hundred and ten thousand dollars, but on the contrary in Mr. Maxcy's letter to the common council, dated August 4th, 1894, which accompanied this statement, and which is now on file with the city clerk, Mr. Maxcy says: "We wish to say further that if the city of Janesville wishes to buy the water plant we would be pleased to make them a much lower price than the net cost of the works as shown by the statement. Will meet a committee in regard to the matter at any time."

No intimation that the city desired to negotiate was received by the company. To resume, however, the history of this matter, after the making of this contract between the Janesville Water company and the Wisconsin Construction company, of course no detailed statement of the cost of this plant was kept on the books of the Janesville Water company. The account of that was kept on the books of the Wisconsin Construction company. That is, the cost of the construction of the plant to the Wisconsin Construction company, was kept in detail, and with perfect accuracy, on the books of the Wisconsin Construction company. The cost of the plant to the Janesville Water company as it came to that company completed, from the Construction company, was kept on the books of the Janesville Water company.

Now when the Water company and the city got into litigation, and subsequently entered into a written stipulation that the original cost of this plant be investigated, and if possible ascertained, I determined to go back to the origin of the matter, leaving out of consideration the cost of the plant to the Janesville Water company, and determining the original cost to the construction company, which actually built these works, and while, as will appear in my statement below, we might have brought a copy of the books of the Wisconsin Construction company, I feared it might be claimed that those books were incorrect, therefore I deemed that receipts, coming from third parties, would be more satisfactory, and I therefore based the statement on receipts.

In making this statement and collecting these receipts and presenting the same to the city, I endeavored to carry out in good faith the stipulation made, and I am free to say that I expected the city to carry out the stipulation on its part, and I still more confidently expected that it would without hesitation examine this statement which I presented in pursuance of a solemn stipulation. I supposed when that stipulation was entered into that it was the purpose on both sides to ascertain, if possible, in a business way, and with the least expense, the cost of this plant.

In requesting the city to examine it, I asked no agreement from the city, which would in any way prejudice it, or any admission whatever of the correctness of the account, but simply an examination of it, and the evidence upon which it was based.

Up to the present time, however, no committee, officer, attorney or agent of the city has ever called upon the company for the purpose of giving the statement, and the receipts, any examination whatever, but the same has been wholly rejected and disregarded, and the stipulation under which it was presented, terminated.

Furthermore from this report, and the attitude of the attorney for the city, it appears that the investigation and determination of the cost of this

## MANY POOR PEOPLE IN TOWN.

City Missionary Kimball Finds Plenty of Folk That Need Aid.

Miss Kimball, the city missionary, finds plenty to do these days. One poor family, to whom she took food and fifty-one articles of clothing, lived in the Third ward, and were in sore straits. The husband had a leg cut off by the cars and was unable to work, while the family were in absolute want.

Another family that needed her help lived in the Second ward. They had two sick children, and were very glad to get aid. A pastor told Miss Kimball of this case, and she hastened to relieve them as far as was in her power.

Another family came here from Michigan where they had been living in the northern pineries. There were ten children in this family and they needed food and clothing very much. The mother came here, she said, to educate the children, as in Michigan they stood a much better show to be eaten up by bears than to become learned.

## SHERIFF APPELBY'S NECK LIMBER

This Fact Enabled Him to Smoke at a Small Cost.

Sheriff Appleby is a gentleman in whom there are concealed rare possibilities.

"I'll bet you the cigars I am not over five feet seven inches tall," he said to Lawyer F. C. Burpee.

"I'll take it," said the barrister.

Disinterested parties did the measuring and the sheriff was found to be but five feet six inches in height. After the cigars had been bought, the sheriff made another proposition to the attorney.

"Now I will bet you I am five feet eight inches tall," said the sheriff and the lawyer took him up again. The second measurement showed the sheriff to be five feet eight and one fourth inches tall and then the crowd looked mystified but there was no getting around the figures. A jill o goes to show that the telescopic neck of an athlete is something upon which wise men bet not.

## LONG DISTANCE PHONES PUT IN

The Gazette Now Has Two, the Finest Ever Installed in the City.

"The Gazette gets the first long distance phones ever put in for Janesville subscribers," said Manager H. C. Willits, as he finished connecting two of the finest instruments ever brought to the city. One is in The Gazette's business office, and the other is an improved desk telephone and is in the editorial room. They are on a full metallic circuit, thus making the transmission of news matter from Madison, Milwaukee, Rockford and Beloit very easy.

No. 73, two rings, gets the business office.

No. 76, three rings, gets the editorial rooms.

Three rings for news items, personals, etc.

Two rings for subscription orders. All are cordially invited.

## OIL WAR RAGING IN KENOSHA.

Kerosene Selling 3-4 Cents Below the Wholesale Quotations This Week.

There is an oil war on at Kenosha and the consumers are the beneficiaries. One side of the controversy is the Standard Oil trust and on the other a few independent refiners. Something like two or three months ago an agent appeared there to sell kerosene oil direct to private families. He represented the independent refiners. A short time ago the trust discovered its sales falling off and began active competition. The result is now that Kenosha families are getting their oil at 3 1/2 cents below wholesale quotations, and are enjoying the prospect of a further cut.

## RAIN INJURES FREIGHT BUSINESS

Local Railroad Men Say That Recent Rains Stopped Shipments of Stock.

"It is surprising," said a Milwaukee & St. Paul official today, "how the recent rains stopped shipments of stock. Long train loads of stock used to come through every night, but since the rains, farmers have held their cattle, in the hopes that the improvement in pastures would be permanent."

## RAIN MAKES TOBACCO HURRY.

Leaf Which Seemed Worthless Two Weeks Ago Is Now Thriving.

The rain of the last two weeks has had a most marked effect on the tobacco fields. Tobacco which appeared almost worthless two weeks ago is now growing finely, and with a few days more of favorable weather will be in condition for the sheds.

## TEMPLARS CHOOSE DELEGATES.

Nine Will Represent The Janesville Lodge in Whitewater This Month.

Good Templars have named these delegates to the district lodge in Whitewater September 17 and 18: George Hanson, E. Baker, W. G. Kildow, Leslie Williams, Clark Beswick, Grace King, J. W. Webb, Charles Ward.

## MUCH CORN IS BEING CUT.

Two Weeks Required to Put Some Fields in Condition, However.

Many Rock county farmers are now cutting their corn, the crop being reported in fine condition, and the yield being above the average. Many fields, however, will require from ten days to two weeks more to put in condition for cutting.

### SAMPLES FOR 1896 ARE BEING SHOWN.

State Record Might Have Been Broken Easily at The Janesville Meeting—Local Trick Rider—Fast Trip on a Tandem—Where The Cyclers are Going.

W. M. PFENNIG and J. G. DeLong started on a tandem Sunday morning for Madison. "Did we go fast?" remarked DeLong. "I should think we did. Along Milton avenue the trees looked like bushes and we made Junction in twenty-nine minutes." As the boys pulled into Milton Junction they were the center of attraction. After a few minutes rest they pulled out for Edgerton where a stop was made for dinner. At 4:20 p. m., they started on their way again but did not leave the town more than a mile behind when they discovered that about half the spokes in the rear wheel had been broken off at the heads, caused by bucking the sand between Milton and Edgerton. As there was no train out until the next morning there was nothing to do but walk the two miles to Milton where they caught the 9:30 Milwaukee train for home.

THERE won't be a great deal of change in bicycle patterns next season. H. W. Warner, who was at the recent race meet here, will represent a Milwaukee cycle house upon the road next year, and says that his samples are about ready. There will be very little difference in either the make or the price of the high grade wheels, he says. The tubing throughout the machines will be a trifle larger, but that is all, and as for the price the higher grade ones will bring the same, about \$100.

NICHOLET will never be a drawing card in this city again with his tricks, for we have a rider in our midst who beats him. As Milton Junction people were returning from church Sunday morning, this well known Janesville man was doing wonders on his light roadster before a large and appreciative crowd in front of the Button block. Just as he was making the wheel waltz on its hind legs he fell heavily and laid until picked up and carried to the sidewalk.

GEORGE H. OSGOOD, W. C. Mitchell and J. C. McGinley left the city at an early hour yesterday for a run to Whitewater. When within three miles of their destination McGinley had the misfortune to break his front rim and was obliged to lead his wheel in and pass the time as best he could until the arrival of the 9 o'clock train, which brought him home. The rest of the party were luckier, as they reached home in the evening without mishap.

CYCLERS are satisfied that the state record of 2:12 could have been beaten upon the Janesville track but no special prize was offered until the last minute. The Andrae manager in Milwaukee promised to send his crack team, Neilson and Schmitzbaur for the purpose of pacing Schrader to beat 2:12 but would not do it merely for love.

"If one thinks for a minute that many of the 'cracks' who were here last week got their wheels for nothing just for the sake of the advertising, they are mistaken," remarked a Milwaukee boy. "Most of them paid hard cash and when they had their machines made to order, as several did, it cost them a nice little sum."

F. A. SANNER, M. D. Wise and H. R. King were among the number who took advantage of a perfect day for wheeling, and went to Delavan Lake and return. They report large numbers of wheelmen from adjacent towns at the lake.

A GREAT deal of regret is expressed at the fact that W. M. Pfennig was out of condition at the recent race meeting. Had he been in his usual form more of the prizes would have remained in Janesville.

JUST for a spin G. M. McKee, Francis Grant, H. V. Allen, Charles Myhr and W. Watt took in the sights of Milton Junction Sunday morning, returning in time for dinner, making the round trip in one hour and a half.

LOCAL doctors feel a trifle disappointed this summer at the scarcity of bicycle accidents. As one of them expressed it: "We have sewed up few of the beginners, but look for better times in the spring."

THE few sign boards that are to be found on country roads in the vicinity of this city, have been pasted over by advertisers, but it is safe to say that the advertisers will not catch the wheelmen's trade.

RICK, Lange, Bingenheimer, Burr, Schrader and Sanger, are five of the fastest men class A in the country, but the Janesville crowd didn't seem to know it.

As the bicycle season is drawing near its end, more cyclists are to be seen upon the streets and country roads, and the machines are being put to good use these moonlight nights.

THE Gazette had a special telephone service between the fair grounds and the city during the race meet which was an advantage to the management in more ways than one.

It is understood that the Janesville malted milk factory will soon put upon the market a six-ounce bottle of liquid nourishment to be known as the "Wheelman's Lunch."

EVER since the race meet, riders of all kinds and all shapes have been

sputtering up and down Main street with but one thought in their head, that they were racers.

THE Arrow Cyclers' party was a great success socially if not financially for the boys are out about a five dollar bill as the result. This is much less than they expected.

P. E. FRINK, of Chicago, is again among us. He rode up on his wheel Friday to visit his brother at Milton Junction.

A LOCAL business man estimated that one-sixth of the crowd at the race meet were on the free lists.

LOCAL stand proprietors did not reap the harvest that they expected during the race meet.

## WHAT CAN ALL SOULS DO FOR JANESVILLE

### THREE THINGS, SAYS REV. MR. SOUTHWORTH.

It Can Make Stronger Individuals, Sweeter Homes and a Purer City—People Who Trade On Religion Scored By Rev. Mr. Halsey—Local Church Notes.

"Our Church—What Can It Do For Janesville?" was the theme discussed by Rev. Victor E. Southworth Sunday. Mr. Southworth pointed out three things—

1. It can work for a nobler, a more just and a more enlightened civic life.  
4. It can work for a sweeter and holier home life.  
3. Above all it can encourage in each and every individual a keener sense of the sublimity of the soul.

Is not this enough? If we can do this, does it not justify our existence even though we are "only a social institution?"

Aye, but how? It is easy with one's eyes fastened on the summit of some towering mountain, to lag leisurely in the valley below. The road to the top is rugged and steep.

How do we achieve these three great triumphs? "We have so little influence! People will not pay any attention to us," Ah! friends that is no excuse. Every one of us is responsible for one person—every one of us can command the attention and respect of one person. If each will live the right life there is no end to the benefit and blessedness we can bestow upon our city. Each of us can furnish one honest, upright and generous citizen to the service of the city. Each of us can be broadminded and openhearted and clean-lived ourselves. And when we are what we ought to be, our city will be the better for.

At the conclusion of the service the subject was discussed informally by the congregation. This feature of the service, which was tried yesterday for the first time, evoked much interest.

## They Trade On Religion.

People who trade on religion were pulled over the coals by Rev. Dr. Halsey last evening. Dr. Halsey singled out especially the people whose religion is merely a theory and not a belief of the heart; the "religious tramps" who make capital of the piety of others and conduct "special services" with collections at the end, and the people in trade who give discounts to ministers expecting advertising in return. Ministers were not free from the evil and many a good man doing good work in a small church had been drawn away to a larger church where the worldly inducements were more brilliant, but the spiritual opportunities far less. All such, ministers and laymen, were using the most sacred name in the world to increase their own worldly gain.

Rev. A. H. Barrington was welcomed by his congregation at Christ church yesterday, after an absence of a month.

Congregational and Baptist churches will unite for Sunday evening services during September. The first of the union services was addressed by Rev. Dr. Hodge at the Congregational church last evening.

At the Presbyterian church the quarterly communion service was held, together with ordination of elders and reception of eight new members to the church.

It being communion Sunday there was no regular service at the Congregational church yesterday. "Jesus, the man of sorrows, not a sorrowful man," was the theme of a short talk by the pastor. The music was one of the sweetest parts of the service, there being two duets by Mrs. A. O. Wilson and Mrs. S. B. Lewis.

## Christian Endeavor Work.

The regular consecration meeting of the Baptist Christian Endeavor Society was well attended, each member present answering the roll call with some thought or quotation appropriate to the subject, "Enthusiasm and what it will do." There will be a business meeting of the society Thursday evening after prayer meeting. This is the time for semi-annual election of officers. A full attendance is desired.

The Christian Endeavor meeting at the Presbyterian church was the monthly consecration meeting, led by J. C. Kline. The subject was "Enthusiasm and What It Will Accomplish," and Mr. Kline made some very practical and helpful remarks, as did also State Secretary Anderson.

J. M. Whitehead was to have led the Congregational Christian Endeavor meeting last evening but was called out of town, and will lead next Sunday evening. The Junior Christian Endeavor resumed its meetings after a six weeks' vacation. The business meeting of Y. P. S. C. E. society will be held with Miss Gertrude Cobb Sunday evening of this week. All members of the society are urged to be present.

## E. M. HYZER REVIEWS WATER WORKS SUIT

[Continued From Page 2.]

plant is to be abandoned, and a proceeding instituted, the sole object of which is to forfeit the franchise of the company, and thus break it down and get possession of the plant without any expense of the city at all.

This seems to be the plain purport of the report, and was the still plainer purport of Mr. Jeffris' verbal statement to the council. In other words Mr. Jeffris proposes to the city that it confiscate the private property of two citizens of Janesville and one citizen of Oshkosh.

I do not believe that the citizens of Janesville desire to pursue such a course if it were possible.

When Janesville citizens became interested in this plant, Turner, Clark & Rawson of Boston had failed. The company had been losing money, it had failed to pay the interest on its bonds when it became due, and was in fact so crippled that it could not furnish the money for repairs and extensions ordered. The gentlemen who purchased the stock at that time, gave to the business their personal attention, industry and ability, and backed the company with their money, and placed it on its feet.

What value the stock has today it owes largely to Janesville capital and business ability, and I shall never believe until it is accomplished, that the city of Janesville desires to confiscate the property of its own citizens.

Two courses are now open to the city and the company. One the simple business method of getting at the cost of this plant, or at least a fair, square attempt to do that, and at the least possible expense. The other the thorny, tedious and expensive, course of litigation, the importance of the issues of which to both the city and the company will drive the case through the gauntlet of the courts, with the only now certain result of trouble and expense.

I am aware that every possible prejudicial statement is now being used to complicate matters. Even the statement which the company made to secure a reduction of interest on its bonds for its own private benefit, is used against it, and that by Mr. Jeffris, who was then a stockholder of the company and acted on a committee with reference to that very transaction.

It is also stated that water takers are oppressed. It may be that in some cases injustice may have resulted. It is hard to avoid that in dealing with a large number of people. But I do not believe it possible for the company to enter upon any course of oppression. The franchise, which of course is binding on the company, provides that its annual rates shall not exceed the average of those charged by any five cities in Wisconsin where water is pumped by steam, and the works are operated by a private company, said five cities to be named by the city of Janesville, said rates not in any event to exceed the schedule which is set forth in the franchise. The five cities were named by the city. No rates can therefore be charged in excess of the average of those five cities, or in any case in excess of the franchise rates.

I suggested through the columns of your paper some months ago that if any water taker was unable to obtain what he believed to be just treatment from the company, to make his complaint to the council, and the company would there publicly meet the matter, and I now repeat that suggestion.

In conclusion permit me to say that I believe much of the criticism indulged in, and the course about to be entered upon, unjustifiable, for the reason that the company has never sought to obtain from the city the cost of this plant on a basis of three hundred and ten thousand dollars, but has from the first stated the contrary, and for the further reason that the company has not asked from the city the cost of the plant on the basis of the last statement, and for the further reason the company is willing to making every effort to get at the actual cost of the plant without expense to the city, and until that appears to be impossible, litigation is unnecessary.

I append the statement filed with the city in April last.

Respectfully,

EDWARD M. HYZER.

To the Mayor and Common Council of the City of Janesville:

You are aware that there is pending in the courts an action involving the cost of the Janesville Water works. You are also aware that a stipulation was made in that action in December last, whereby it was agreed that the plaintiff city and the defendant Water company should enter upon an investigation of the cost of the works, each to produce to the other the evidence which they should be able to obtain, together with the sources of all such information, to the end that the actual cost of said works might be ascertained.

The Janesville Water company immediately entered upon an investigation of the cost of said works, and is now prepared to produce to the city the cost of the works and the evidence thereof.

It will be remembered that the original contract under which these works were constructed was made between the city and Turner, Clark & Rawson. We understand that Turner, Clark & Rawson at that time were in the business of constructing water works, being at least the principal controllers of the corporation known as the Wisconsin Construction company. This company constructed a number of different plants, among which was the one in question at Janesville.

We therefore endeavored to get at the actual cost of this plant to the Wisconsin Construction company, the original constructors of the plant. Their books, which are in Boston, show the cost of this plant in detail, and while we might have been able to produce a copy of those books here, we have thought it would be more

satisfactory to go further than that, and we determined if possible to obtain the original bills or invoices for the material that went into these works, and the receipts for the amounts paid for labor and other expenses, and to base the statement of the cost of the works upon these original receipts and receipted bills and invoices. In pursuance of this determination we sought to gather in these documents, and we have been very fortunate and successful.

We have visited Chicago, Cincinnati, Philadelphia, Emaus, New York, Boston, Providence and other places, and we have secured the original bills and invoices sent by the various houses from which material and supplies were purchased, and these are receipted by those houses. These bills and invoices are not copies, they are the original ones sent out when the goods were shipped, and sent out in the usual course of business; they are not statements of long accounts, but they are the bills or invoices accompanying each shipment, great or small.

We have also secured the receipts for all money paid out in other ways, including pay rolls, time checks and accompanying receipts.

Upon these vouchers we have prepared a statement of the cost of this plant, that is the original cost to the Wisconsin Construction company.

This statement contains the name of every person, firm and corporation to which money was paid for the construction of these works, and the amount so paid to each. From every person named in this statement we have a voucher or receipt for the amount paid as shown on the statement.

For convenience in examination of this statement, the cost of the plant is divided into twenty-six accounts or parts, and each item of expense is charged in this statement to one of these accounts.

The receipts or vouchers are accordingly arranged in twenty-six packages, corresponding to the twenty-six accounts, and each voucher or receipt is numbered in each package.

It will be apparent that this statement and the vouchers or receipts can therefore be very readily examined and verified.

It must be understood that this statement and these vouchers present the cost of this plant, not in lumps, but in detail and with minuteness. This will be readily understood when I state that there are over three thousand of these receipts.

In making this statement based upon receipted bills, we have thought it must be the most satisfactory method possible. It does not rest upon books, kept by interested parties and which might be manipulated or stuffed, but it rests upon the bills and receipts of business houses, made in the usual and daily course of their business, and at the time the business was done.

Since the making of the stipulation referred to we have endeavored in good faith to ascertain the original cost of this plant, and we submit this statement to you with evident good faith because while we believe it to state the true cost of this plant it is at the same time satisfactory to us. The vouchers or receipts on which it is based we of course retain in our possession. We could not be expected to part with the originals, and the labor of copying such a mass of papers would be too great to undertake, and the copies would be less satisfactory as they would not bear upon their face the evidence which appears upon the originals.

The originals are here in Janesville in our possession, properly arranged to be readily referred to from the statement which is here presented, and the fullest opportunity will be given to the Mayor and the Council, to any committee appointed by it, to any member of it, to any attorney or agent acting for it, to examine these vouchers at such time or place as they shall name. We will bring these vouchers before the Mayor and Common Council as a body, at the council chamber or at such other place as they shall name, or we will bring them before any committee, member of the council, attorney or agent for the council, or we will permit them to be examined by an expert appointed by the council. We shall only reserve the right to preserve these vouchers, as they are not only the evidence of cost, but their collection has involved much time and labor and expense.

We beg the council to fully and carefully investigate this statement which we here produce and present to the council and the city. We ask that the council fully verify this statement from the vouchers, and we will render every possible assistance.

If there be any wonder why this was not presented when the cost of this plant was called for, I will state that at that time the books of the Wisconsin Construction company were not in the possession of the Janesville Water company, nor were these vouchers and receipts in its possession, but on the contrary were scattered in various and distant places.

The collection of these vouchers has been the first information to the present owners of this plant of the original cost of the plant. The statement that was filed was the cost of the plant to the Janesville Water company as shown by its books.

In the statement which is herewith submitted, there is included no interest and no expenses of running the plant.

The subsequent cost of this plant which has been borne by the Janesville Water company itself can of course be readily stated and verified from the books of the Janesville Water company. Respectfully,

EDWARD M. HYZER,

Miss Charlotte E. Maxwell, of the Boston Gymnasium, Boston, Mass., has been for several weeks a guest of Lady Henry Somerset at Eastnor Castle, and is about to fit up a gymnasium for her ladyship's use at her beautiful Manor House, the Priory, Reigate, twenty miles from London, where she will instruct classes during the summer months.

Missionaries say there are seven American bar-keepers in the village of Nazareth, the home of the Savior. The New York Tribune thinks, if it be true, "it is time for the institution there of a temperance crusade of unusual zeal and energy. Mahomet had no use for bar-keepers, and they have no standing in the Koran, and are only allowed in territories of Islam in deference to a supposed sentiment in their favor on the part of foreign visitors. But there are some shrines and holy places in which they should be forbidden to compound their elixirs, or to put in any appearance, official or other, and that Nazareth is one of them is not to be for a moment doubted."

## Black Vs. White.

Sadie Williams (colored) had Mrs. Annie Chase arrested in Philadelphia the other day because she (Annie) had married her (Sadie's) best fellow, who is a negro. Annie don't like such doings very well, but she is hooked to Chase all right.

## A Photographic Bullet.

A bullet provided with a tiny photographic outfit of its own is the late invention of a German named Herr Neesen. In carrying out this ingenious idea Professor Neesen has provided a bullet which carries a miniature photographic plate. This plate, which is very sensitive, is slipped into a slit in the bullet in such a manner as to receive its light through a pinhole in the conic or forward end of the muslin. In this manner a gyrating line is traced on the plate which is a complete record of the bullet's oscillations from the moment it leaves the muzzle of the gun until the impact with the target.—St. Louis Republic.

## A MOTHER'S DUTY

### TOWARDS HER DAUGHTERS.

Suggestions Which Bear Repenting, as Their Importance is Immeasurable.

[SPECIAL TO OUR LADY READERS.]

Only a few years ago even the medical profession scouted the idea that young girls could suffer from the misery of uterine troubles.

That form of disease, it was claimed, came only to married women.

When Lydia E. Pinkham first sent out the news of her great discovery, there was no lack of harsh speech from those whose practice and opinions she set at defiance.

But when young girls by the hundreds were absolutely cured by Lydia E. Pinkham's Vegetable Compound, then the tongues of the traducers were stilled, and faith was allowed to live in the hearts of the people.

Young girls are subject to this trouble. It robs them of the buoyancy of youth. It makes all effort distasteful.

It causes retention and suppression of menses, leucorrhoea, severe headache, waxy complexion, depression, weakness, loss of appetite and interest.

Certainly mothers ought to know that these are all symptoms of the one cause of nearly all the suffering that comes to women; and to save their daughters ought to begin treatment at once.

Lydia E. Pinkham's Vegetable Compound is the surest and most natural remedy for women ever compounded. It will accomplish its work with certainty.

REPRESENTATIVE.

**The Great Healing Power.**

Exponents of the methods of the great European Practitioners. Sir Morel McKenzie and Count Maestri, will lecture and cure cripples upon the chariot. No magnetic power. No sugar coated pills.

**LECTURE AT 7:30 P. M.**

**At Corn Exchange Square.**

All rheumatic cripples who cannot walk without crutches or canes, no matter how bad they may be, are requested to call at the Park Hotel, and give their names as a few of the worst cases will be cured free of charge, to show the extraordinary power of the remedies. The method of Veno's treatment is not to be confounded with the so-called magnetic healing. The cures are effected through the efficacy of his extraordinary remedies, imported from Europe. Their medicines may relieve rheumatism, but Veno's medicines cure completely the worst and most desperate cases.

Monday night, September 2nd, Veno, the great healing power will lecture and cure cripples in public, on his chariot. The cures effected by the wonderful Veno remedies have become town talk in every place he has visited.

Every man, woman or child, sick or well, should be in attendance at the lecture. A few well known rheumatic cripples will be cured publicly. Do not confound this with the so-called magnetic healing, as it has no connection with such nonsense. It is the result of powerful remedies which never fail to cure the obstinate and stubborn cases.

You cannot cure chronic rheumatism with sugar-coated pills, and no man of intelligence will be deceived by such representations.

Veno's remedies are imported and differ from anything else ever prescribed here. They are absolute specifics, not only in rheumatism, but in all diseases for which they are prescribed. Veno will not take any cripple who does not walk without either canes or crutches, and above all must be a well known. Those who apply first will be the first attended to. Come at once.

THIS DAY IN HISTORY.  
1606—The great fire in London began near the Tower; it continued five days, destroying 13,000 houses, besides churches, etc., or five-sixths of the city.  
1736—John Howard, philanthropist and prison reformer, was born at Hackney, died in Russia 1790.  
1792—Princess de Lamballe murdered by the mob in the streets of Paris.  
1813—Battle of Dresden and mortal wounding of General Jean Victor Moreau.  
1870—Surrender of the emperor's army at Sedan; Napoleon delivered his sword to King William and surrendered 4,000 officers, 14,000 wounded and 82,000 fighting men.  
1894—The towns of Hinchley, Pokagona and Madison Creek, Mich., destroyed by forest fires, over 450 lives lost and many people injured.

MAGAZINES OF THE MONTH.

North American Review.  
Max O'Reill very wittily gives his opinion of "The Petty Tyrants of America," and Edward W. Blyden, Librarian minister to the Court of St. James, eloquently dwells upon "The African Problem" in the North American Review. The Hon. James H. Eckels, comptroller of the currency, writes hopefully of "Our Reviving Business," while in "A Brush with the Bannocks" Major-General Nelson A. Miles U. S. A., favors the Review with a chapter from the advance sheets of his book "From New England to the Golden Gate." "The Situation in Cuba" is described by Senor Don Segundo Alvarez, late mayor of Havana, who of course, views affairs from a governmental stand point. Other topics admirably considered are "St. Anthony's Bread," by Charles Robinson; "Then and Now," by Edward P. Jackson, and "Country Roads and Trolleys," by John Gilmer Speed.

The September Cosmopolitan.  
Conan Doyle, H. H. Boyesen and Clark Russell are among the story-tellers. A well-known New York lawyer, relates the story of "A Famous Crime," the murder of Doctor Parkman by Professor Webster. A delightful sketch of "An English Country House Party" is from the pen of Nina Larro Smith—the house at which she visited being no less than the historic Abbotsford, still occupied by the direct descendants of Sir Walter Scott. Thomas Moran again contributes a series of the exquisite landscapes of western scenery, twelve in number, illustrating an article by Col. John A. Cockerill, on "Modern Utah."

Romance For September  
Among the best of the stories in September Romance is "The Flowing Source," by Quiller-Couch who stands in the front rank of modern English writers of fiction and Jules Clarotte, J. M. Barrie and Max Pemberton are represented by well selected tales.

EVENTS SET FOR THE EVENING.  
DANCE—Dancing in connection with the Labor Day observance at Mayflower Park.  
PLAY—"A Thoroughbred" at the the Myers Grand.  
ROYAL ARCADE—Semi-monthly meeting.  
DRILL—Janesville Light Infantry.

"A Thoroughbred."  
The piece is a high class comedy-drama, such as have been presented by Augustus Daly, Frohman, and The Kendalls. It is in three acts, which are laid in New York, London and Paris.

The principal character is Willie Green, a young California millionaire, of unsophisticated looks and actions, whom every one takes for a fool, but who in reality is shrewd, good natured, a thorough gentleman and a thoroughbred.  
The companion part to him is Mrs. Strongmind, a meddlesome elderly lady of the "new woman" type, and to whom Green renders great service in a foolish love affair, and "thereby hangs a tale" which only seeing this performance will unravel. At Myers Grand tonight.

CARE OF THE HAIR.

Ignorance Brings About Unattractive Locks and Scalp Diseases.  
According to a certain distinguished hair-dresser, women do not know how to comb their hair. Their sins of ignorance are almost innumerable, and the result is not only unattractive locks, but headaches and scalp diseases. A cheap comb and brush, according to this authority, belong in the same category with cheap soap. They should never be used. Cheap combs do not have smooth teeth which will make their way unresistingly through the hair. It can never be run through the hair without breaking off some hairs and dragging others out by the roots. Rubber or shell is the proper material for a comb. The teeth should not be too sharp or they will lacerate the scalp. On the other hand, they must not be very blunt or they will not be effective in smoothing out tangles. Brushes should be chosen with equal care. They should not have metal backs, no matter how attractive silver may appear, for the metal makes them too heavy. The back should be of light wood and the bristles should be long and thickly set. Moreover, they should be bristles, and not weak imitations. After she has purchased her "tonsorial supplies," the woman who aspires to have beautiful hair should learn how to use them. She should brush her hair for five minutes at a time twice a day, using long, even strokes. At night she should part her hair and let it hang in two loose braids. Once a day she should rub her scalp with her fingers to stimulate the circulation. The brushing is absolutely necessary, for the hair attracts dust and dirt with fatal facility, and this, combining with the oil of the hair, makes it malodorous and unpleasant in the extreme. A monthly washing with castile soap and the daily brushing will keep it clean and glossy, however.

RIPPED UP BY A SWORDFISH.

Prime but Dangerous Sport for Hardy Fishermen Near the Gulf Stream.  
Not many days ago the mackerel fishing schooner Centennial, of Gloucester, scraped a costly and curious acquaintance with a huge swordfish in the waters off Cox's ledge at the southeast end of the island. Mackerel were running lively and the Centennial's crew had done a great day's work harvesting plump, striped beauties by the acre with its mammoth 11,000 seine. At night the vessel was hove to with her big seine-boat, bearing the net, attached to the schooner and running free astern. The tired sailors slept soundly, says the Philadelphia Record. None heard any unusual uproar in the night, not even the bow watchman. At daylight, however, he noted that the heavy seine-boat had been capsize, and that it lurched weightily on its thick towing-line. He piped all hands on deck. Great was the regret and concern of all, for the valuable seine, the mainstay of their industry, had gone overboard and evidently was lost. Gloomily, but quickly, the sailors righted the boat, and then they discovered that a swordfish had charged the boat and had driven his serrated saber plumb through its stout side. So terrific, indeed, had been his onset, that, apparently, he had flung the boat squarely out of the sea, twirling it in the air like a shuttlecock, and it had come down bottom up and was partly submerged. The bottom of the boat is of solid planking, but the swordfish had driven his sword through it as easily, it seemed, as if it had been of paper. But after he had delivered the thrust the fish had been unable to withdraw his blade, hence, with a mighty wrench, he had shaken himself free from the craft, but his sword was broken. The point, solidly fixed in the plank and sheathing, protruded more than six inches above the bottom of the craft.

Boston Speaks Well of Trilby.

The skill with which Mr. Potter has done his task can be called nothing less than remarkable. He has shown astounding skill in the way of incident that made the novel interesting. As a piece of dramatic workmanship it is truly admirable. "Trilby," both as a play and a performance, is one of the best, most interesting and exciting things that appeared on the stage this season. The success was unquestionable, an undoubted "success d'enthousiame."—Evening Transcript. At Myers Grand Tuesday, Sept. 3.

A NEW DYSPEPSIA CURE.

Over 6,000 People in State of Michigan Cured in 1894 by this New Preparation.

Stuart's Dyspepsia Tablets, the new discovery for stomach troubles, is claimed to have cured over 6,000 people in the state of Michigan alone in 1894. These tablets have become so popular with physicians and people who have any form of indigestion that they have the endorsement of such physicians as Dr. Harlandson and Dr. Jennison as being the safest, most reliable remedy for sour stomach, chronic dyspepsia, gas, bloating, palpitation, headache, constipation, and in all cases where the appetite is poor or the food imperfectly digested. It is safe to say that Stuart's Dyspepsia Tablets will cure any kind of stomach trouble except cancer of the stomach. They are not a secret patent medicine but composed of vegetable and fruit essences, pure pepsin, Golden Seal, ginger and the digestive acids. They are pleasant to take, can be carried in the pocket, they cure because they digest the food promptly before it has time to ferment and poison the blood. Druggists everywhere sell Stuart's Dyspepsia Tablets, full sized packages, at 50 Cents. A book on Stomach diseases and thousands of testimonials sent free by addressing The Stuart Co., Marshall, Mich.

## MAD BRAIN CAUSED TRINWITH'S RAID

MAN WHO TERRORIZED HARMONY WAS A LUNATIC.

Commission of Physicians Examine Him at the Jail And Declare That He Is of Unsound Mind—Makes Threats Against Many People—Other News Gathered About Town.

GONE MAD—It was a disordered brain that impelled Thomas Trinwith to start a reign of terror in the town of Harmony Friday night, which tantrum resulted in his arrest by Sheriff Appleby and Officer Hogan Saturday. Complaint was at once made that Trinwith was of unsound mind, and Judge Sale, who had just returned from his vacation, appointed Drs. Whiting and Dudley to examine him. The examination was held at the jail, and terminated at 4:30 o'clock Saturday afternoon by the physicians adjudging Trinwith to be of unsound mind, and recommending his confinement in an asylum. Trinwith made no trouble for the physicians, but threatens dire vengeance on all who had a hand in his being locked up. His family and the neighbors were all afraid of him, and will probably be much relieved to find that he will be cared for. Sheriff Appleby will take him to Madison tomorrow.

THE Young People's Rectory club of Trinity church will give the last of a series of moonlight rides up the river Tuesday evening, September 3, on the Steamer Columbia. Fare for round trip 15 cents. A good time is assured to all, boat leaves at 7:45 p. m.

TICKET SELLERS—A delegation of Janesville ticket sellers will soon be handing paste boards at the state fair grounds. Those who expect to go are Edwin Field, H. D. Murdock, Ed. Hyde, Arthur Jenkins, I. C. Brownell and C. B. Conrad.

TOBACCO—Two hundred cases of 1893 Wisconsin Havana were sold in New York last week at 7 to 9 cents, one hundred and fifty cases of 1892 Wisconsin at 12 to 15 cents and one thousand cases of 1894 at private term.

MANY NUTS—Three Janesville boys visited the hazel nut woods near Spaulding's lake yesterday, and brought home five bushels of the nuts. Not until frost comes, however, will the nuts be really good.

LOOKED NICE—The city police force under command of Chief Acheson, made a fine appearance at the head of the Labor day parade this morning, with the sun glinting from their polished hickory uniforms.

PEACHES—It is estimated that fully three thousand baskets of peaches were sold in this city Saturday and by 9 o'clock there wasn't a basket for sale. The men who sold the most advertised in the Gazette.

OUR buyer is now in the eastern markets. We will have our new goods all here in about a week. We then expect to do the liveliest dry goods business we ever have done. Bort, Bailey & Co.

HAZEL NUTS—Quite a delegation of small boys were engaged in gathering hazel nuts in the woods near the old Victor factory this afternoon. The crop of nuts is said to be good this fall.

WE carry the largest and most complete stock in a number of the celebrated line of goods in all styles and widths of shoes and can suit you in style and price. Brown Bros. & Lincoln.

BASE BALL—Happy Hollows with Geeser and Kellogg as battery defeated the Monterey Kickers with Minnick and Dorsey as battery yesterday afternoon and the score stood 9 to 8.

HARVEST HOME—A "harvest social" will be given by the Baptist Endeavor society next Friday evening in the church parlors. An interesting programme is being prepared, and re-

freshments will be served. All friends of the society are cordially invited.

We have no menagerie to show you but we have a display of buggies that's almost as interesting to see. We are preparing to make the finest exhibit of buggies at the Rock county fair this year that has ever been brought together in this part of the country. Don't miss seeing the lot whether you buy or not. F. A. Taylor.

PUT potatoes in a cart over a rough road, and the small ones go to the bottom; just the same with shoes; you buy cheap shoes, old ones, maybe, and when the day of advertising comes or the fall rains, you find them with the small potatoes at the bottom. It always pays to buy good shoes. Brown Bros. & Lincoln.

SOLD HIS PAPER—Thomas H. McElroy, proprietor of the Shullsburg Local was in town today. Mr. McElroy has sold the Local, which was one of the state's best weekly papers, and when here was on his way to Ironwood, Mich., where he will take charge of another journal.

We are doing our share to make the return of prosperity beneficial to you. We bought all of our fall stock before any rise in the leather market and we propose to give our friends the benefit of any advantage we got. Come to us. Brown Bros. & Lincoln.

## LABOR DAY MARKED IN A FITTING WAY

PARADE THIS MORNING WAS THE LARGEST IN YEARS.

All The Local Unions Were Represented While the Fire Department and Fire Police Turned Out in Full Uniform—The Fun at Mayflower Park.

Janesville's laboring men—and women—held their annual outing today, and a big time they had. The weather could not have been finer; as it was neither too hot nor too cold, and a large crowd was out in consequence.

Mayor Baines wasn't in sight, but he had a little Labor day celebration of his own. All of the city's spectacular resources with the exception of the chief executive, however, were made use of to swell the turnout. The streets were lined with people when the first rattle of drums and clash of cymbals came from the Imperial band. The parade formed at the court house park at 10 o'clock, and at 10:30 the signal to march was given.

The parade elicited much praise. The band, under Director Al. Kniff, made a fine appearance in their new military uniforms which were worn for the first time. They turned out twenty-four strong preceded by Drum Major J. H. Cullen, in all the glory of white and blue.

The Unions In Line.

The various unions were preceded by John Abbott who carried the American flag and marched just behind the band. Then came the presidents of the various unions and behind them Chief Engineer Spencer and Assistant Chief Osgood rode in the chief's buggy.

The fire police in the patrol wagon and No. 1 horse carriage followed. The book and ladder wagon, the engine, the aerial ladder, hose wagon No. 3, hose carriage No. 2, followed in the order named. President John McKeigue of the Federated Trades Council and Attorney John J. Cunningham rode in the carriage that came next after the department, while T. S. Nolan and E. M. Hyzer occupied the second one.

The Textile Workers Union, composed of the employees of the cotton mills company had twenty-six men in line; women shoemakers, seventeen in number rode in two carryalls and were followed by the tailors with twenty-three men; the cigar makers with twenty-three men; the barbers with fourteen men; the shoemakers with sixty-six men and the plumbers and printers. A. L. Neilson's floats with a wagon maker and a plow repairer, both at work, ended the procession.

Speeches at the Grounds

After the parade the crowd boarded the steamer Mayflower and were carried to the park where speeches and games of various kinds made the time pass quickly. Attorney T. S. Nolan, E. M. Hyzer, J. J. Cunningham and J. L. Mahoney were the principal speakers while music by the band livened up the program. The games furnished endless amusement for the older folks as well as the boys and the celebration will wind up tonight with a dance for which Hyuker's orchestra will furnish the music. The parade was the largest ever seen in Janesville on Labor Day and many people spoke of the fine appearance the men in line made. Some of the stores closed in honor of the occasion while nearly all of the factories shut down.

The following shoe firms closed their places of business today at noon to allow their employees a half day's recreation in observance of Labor Day: Becker & Woodruff, Brown Bros. & Lincoln, A. Richardson Shoe Co., Trulson & Peterson.

## CAL' BROUGHTON, NABOB ATHLETE

Milwaukee Journal Speaks of the Old Rock County Player.

The Milwaukee Journal publishes the following in their "Badger" column: "Who does not remember Cal. Broughton, the once famous ball player? He is still in the land of the living and still a good ball player, though he does not make that his business. He lives on a fine farm of 450 acres a few miles from Evansville, Rock county, and is wealthy, so that he can afford to play ball occasionally, just for fun. And that accounts for the fact that he and three other Broughtons, his brother and two sons of the latter played a game as part of the Evansville team a few days ago. Cal took his old place behind the bat and astonished the youngsters with his skill. His brother, Postmaster F. Broughton, of Evansville, covered first base and the two members of the younger generation held third base and left field. They are all clever players and the people of Evansville sighed as they thought what a team they would have were there enough more like them to fill up the positions.

STEED DIDN'T WORK SUNDAY.

Peterson House Still Stands On The Emmett Street Sidewalk.

George Peterson's house still stands on the Emmett street sidewalk. It is clear of the original confines of Patrick Steed's land, but the vacation of a part of Emmett street moved Mr. Steed's lot line to the middle of the street and after the house-movers finished this building was still within the reach of an injunction proceeding. Mr. Steed secured that injunction and is now holding the house to secure a payment of \$275. He was advised to adopt Peterson's tactics yesterday and move the house back on the foundations where it first rested. The neighbors stood around expecting to see him do it but Sunday passed without any move.

## FRANK NELSON'S PIG WAS A COSTLY ONE

EVANSVILLE MAN IN JAIL IN DEFAULT OF CASH.

District Attorney Jackson Scores Another Victory by Convicting the Defendant, Who Was Thereupon Fined \$100 Which He Could Not Pay—Drunks Sent to Cells to Sober Up.

There are pigs and pigs, but in the point of cost, the sightless variety that flourishes at Evansville, is by far the most expensive.

Frank Nelson can truthfully bear witness to this fact, for he now lingers in durance vile because he harbored one.

In this connection it can also be truthfully said that District Attorney W. A. Jackson seems to be an expert in training blind pigs in the way they should go. Nelson was tried at Evansville Saturday, the district attorney conducting the prosecution. The case was finished and given to the jury in time for the county official to catch the train for home, but the six good men had not yet reached a decision. Saturday night, however, the district attorney was notified that his work had borne fruit and that Nelson had been found guilty. Justice Phillips, who tried the case, then sentenced Nelson to pay a fine of \$100 and costs or go to jail for six months. Not having the necessary cash in his pocket at the time, Mr. Nelson was brought to Janesville and locked up pending the payment of the score.

Three drunks were before Judge Phelps this morning. Officer Hogan made complaints against Henry Squires and James Miller, while Chief Acheson set forth the facts in Joseph Mulligan's case. All three were sent to jail, Squires for two days, Mulligan for one day and Miller for three days.

## PRINTERS' INK.

The ad reflects the man who makes it. Printers' ink is baking powder to business.

A good ad, sometimes suggests more than it tells.

The pointed ad sticks in the reader's memory.

The funny ad, like the funny man, is not generally appreciated.

Ads should be "talk"—but it should be the talk of the wise man, not of the fool.

There are already some papers in which an ad has got to be supremely good—or it's no good.

A clerk who talks briefly, pointedly, and respectfully will sell goods—so will the ad that talks so; only it will sell more.

The most successful advertiser is not the man who spends the most money, but the man who spends his money in the best way.

Originality in advertising does not consist in inventing new or bizarre methods, but in making the most effective use of methods usually utilized.

The man who advertises poorly may strike it now and then if he advertises continuously. Macaulay said that the clock that didn't run was right twice in twenty-four hours.

It is refreshing to note that the press is almost unanimously of opinion that the department store is a natural evolution in business methods, no more possible to be suppressed by legislative enactment than it is possible to suppress any other natural phenomena by making laws against them.—From Printers' Ink.

## A Liar From Janesville.

A farmer living near Pulaski, while out walking across his farm one day last winter, shot a partridge, and on crossing the Shenango where the bird fell he stooped to pick it up, when something warm and of a mucilaginous consistency fell upon his head. This he soon found was honey, and examination discovered that the bullet from his gun had penetrated a bee tree after passing through the partridge. He returned to the house and secured three large tubs and two milk pails, all of which he filled with honey.

While securing the honey he noticed a peculiar movement of the tree, which seemed to expand and subside at intervals. Passing to the other side, a wide seam was apparent, and he learned that the tree was hollow. From this he succeeded in extracting 32 coons, which had taken up winter quarters therein, the peculiar movement of the tree having been caused by the united breathing of the coons.

Nor was this all of his remarkable adventure, for on attempting to cross the river the ice gave way, and he was obliged to swim for a short distance. When he arrived at his home, he had about 45 bees in his coat pockets, and a few had found lodgment in his boots.—New Wilmington (Pa.) Globe.

## A Question of Expense.

"How will you have your eggs cooked?" asked the waiter.

"Make any difference in the cost of 'em?" inquired the cautious customer with the brimless hat and faded beard.

"No."

"Then cook 'em with a nice slice of ham," said the customer, greatly relieved.—Chicago Tribune.

## THE best investment

in real estate is to keep buildings well painted. Paint protects the house and saves repairs. You sometimes want to sell—many a good house has remained unsold for want of paint. The rule should be, though, "the best paint or none." That means

## Strictly Pure White Lead

You cannot afford to use cheap paints. To be sure of getting strictly Pure White Lead, look at the brand; any of these are safe:

"Southern," "Red Seal," "Collier," "Shipman."

FOR COLORS.—National Lead Co.'s Pure White Lead Tinting Colors.

These colors are sold in one-pound cans, each can being sufficient to tint 25 pounds of Strictly Pure White Lead, the desired shade; they are no sense ready-mixed paints, but a combination of perfectly pure colors in the hands of a tinting artist. A good many thousands of dollars have been saved property-owners by having our book on painting and color-card. Send us a postal card and get both free.

A Golden Harvest  
is now insured to the farmers of the west and Northwest, and in order that the people of the more Eastern states may see and realize the magnificent crop conditions which prevail along its lines, the Chicago, Milwaukee & St. Paul R'y. has arranged a series of three (3) harvest excursions for August 29, September 10 and 24, for which round trip excursion tickets (good for return on any Friday from September 13 to October 11 inclusive) will be sold to various points in the West, Northwest and Southwest at the low rate of about one fare.

For further particulars apply to the nearest coupon ticket agent or address GEO. H. HEAFFORD, Gen'l. Passenger Agent, Chicago, Milwaukee & St. Paul R'y., Chicago.

THERE is no doubt, no failure when you take De Witt's Colic & Cholera Cure. It is pleasant, cures promptly. No bad after effects. C. D. Stevens.

Les: Than Half Rates to Louisville, Ky.

On account of the National Encampment, G. A. R. the Northwestern line will on September 8, 9 and 10 sell excursion tickets to Louisville, Kentucky and return at less than one fare for the round trip. Tickets limited to return leaving Chicago not later than October 6, 1895. For tickets and full information apply to agents C. N. & W. Ry.

## Half Rate to Milwaukee.

On account of the Milwaukee Industrial Exposition and Wisconsin State Fair, the Northwestern line will, on September 16 to 21, inclusive, sell excursion tickets to Milwaukee and return at one fare for the round trip. Tickets good for return passage until September 23, 1895. For tickets and full information apply to agents C. N. & W. Ry.

Children, especially infants, are soon run down with cholera infantum or "summer complaint." Don't wait to determine, but give De Witt's Colic or Cholera Cure promptly, you can rely on it. Use no other. C. D. Stevens.

## Boone County Fair at Belvidere.

For the above occasion the Northwestern line will sell excursion tickets at reduced rates to Belvidere and return. Tickets on sale from September 9 to 13, inclusive, good for return passage to September 14, 1895. For tickets and full information, apply to agents C. N. & W. Railway.

## Northern Illinois Fair at Freeport.

For the above occasion the Northwestern line will sell excursion tickets at reduced rates to Freeport and return. Tickets on sale from September 9 to 13, inclusive, good for return passage to September 14, 1895. For tickets and full information apply to agents C. N. & W. Railway.

## Winnebago County Fair.

For the above occasion the Northwestern line will sell excursion tickets at reduced rates to Rockford and return. Tickets on sale from August 31 to September 7, 1895. For tickets and full information, apply to agents C. N. & W. Ry.

Diarrhoea should be stopped promptly. It soon becomes chronic De Witt's Colic and Cholera Cure is effective, safe and certain. Hundreds of testimonials bear witness to the virtues of this great medicine. It can always be depended upon. Its use saves time and money. C. D. Stevens.

## Second Hand Stoves.

Large line of second hand stoves, all kinds in good repair. They are nicely blacked and set up on our base for inspection. We will make the prices right and we want to close them out early. Those coming first will of course get the best selection. Lowell Hardware Co., Milwaukee St.

## If the Baby is Cutting Teeth,

Be sure and use that old and well tried remedy, Mrs. Winslow's Soothing Syrup for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

## A Cheap Domicile.

For sale or rent, very cheap to a small family, house and lot facing Riverview Park, heated by steam radiator in every room, fine Niagara range in kitchen, connected with hot and cold water, bath room, water closet, stationary laundry tubs, perfect sewerage and shades for all windows, newly papered, hard wood floor. In fact, is a model house and just right for a small family. Carrington bus line passes the door and within two and a half blocks of the street cars. We are the boys for business. Will sell, rent or trade to some one, Lowell Hardware Co., Milwaukee street.

THERE was a time when all that was wanted in a pair of boots was something to keep the feet off the ground but it is now he wants not only that but good looking feet. We recognize this fact and keep them to fill both wants Brown Bros. & Lincoln.

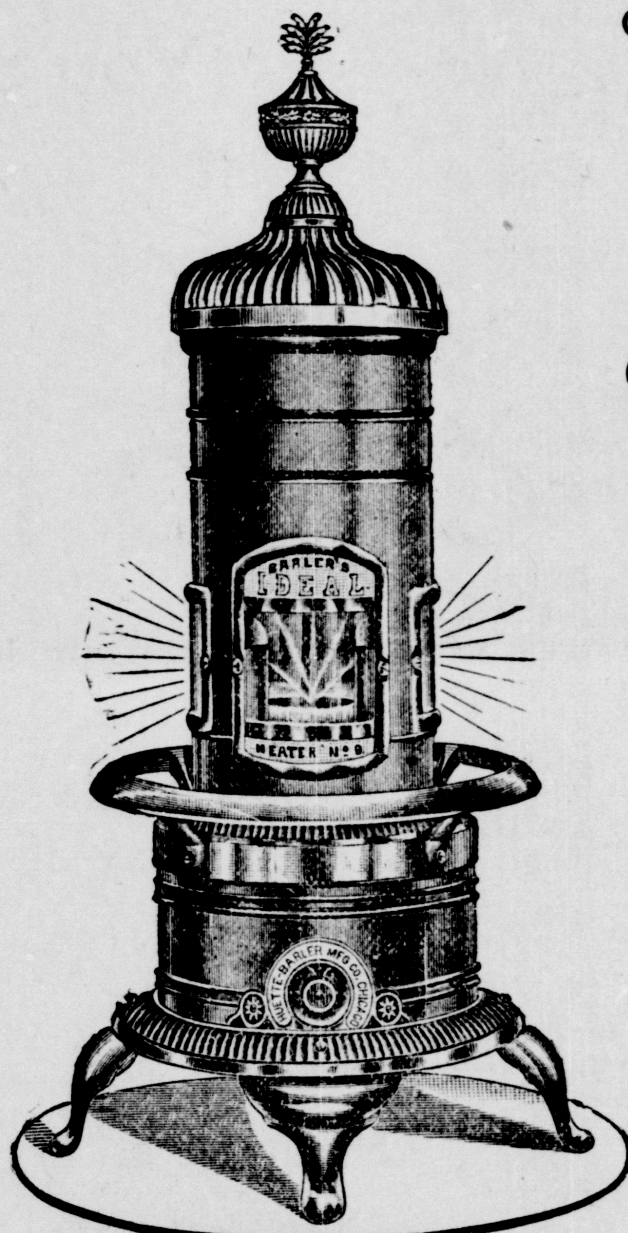

## Short Intervals of Peace

Only are vouchsafed to nerves weak and unstrung, but when it is braced up and soothed by Hostetter's Stomach Bitters, perfect tranquillity reigns night and day throughout the nervous system. Nervousness is usually a manifestation of chronic dyspepsia, a disorder to the relief of which the Bitters is peculiarly adapted. In the general vigor begotten of complete digestion and assimilation, two functions aided by this auxiliary of health, the nerves of course share. Nervous people should use it steadily, not at uncertain intervals. The bilious and constipated, and those troubled with malaria, rheumatism and kidney trouble, also derive unspeakable benefits from it. The aged and infirm find that it tends greatly to lessen their physical troubles and persons slowly recovering strength after an exhausting illness convalesce more rapidly when it is resorted to. It is, moreover, a capital appetizer.
